- D. Information on the District's Proposed Tax Levy for Taxes Payable in 2016
- E. Public Comments
- F. Board Certification of Final Levy

A. PROPERTY TAX LEVY PROCESS

- * Every owner of taxable property pays property taxes for the various "taxing jurisdictions" (county, city or township, school district, special districts) in which the property is located
- * Each taxing jurisdiction sets its own tax levy, often based on limits in state law.
- * "Levy limits" (maximum levy amounts) for all categories are set either by: 1) State law or 2) Voter approval
- * County sends out bills, collects taxes from property owners, and distributes funds back to each taxing jurisdiction.
- * Key steps in the property tax process are summarized below. Any of these steps may affect the taxes on a parcel of property, but the district has control over one, step #6, of the 7 steps
 - #1 The City or County Assessor determines the estimated market value for each parcel of property in the county
 - #2 The **Legislature** sets the formulas for tax capacity (E.g. for homestead residential property, tax capacity=1% of first \$500,000 in value + 1.25% of value over \$500,000). These formulas determine the amount of taxes.
 - #3 The **County Auditor** calculates the tax capacity for each parcel of property in the county (based on values from step 1 and tax capacity formulas from step 2) as well as the total tax capacity for each school district.
 - The **Legislature** sets the formulas which determine school district levy limits. These are the maximum amounts of taxes that school districts can levy in every category.
 - #5 The **Department of Education** calculates detailed levy limits for each district based on the formulas approved by the legislature in step #4. These limits tell districts the exact amounts that can be levied in every category.
 - #6 The **School Board** adopts a proposed levy in September, based on the limits set in step #5. After a public hearing, the board adopts a final levy in December. Final levy cannot be more than the proposed levy, except for amounts approved by voters.
 - The **County Auditor** divides the final levy (determined by the school board in step #6) by the district's total tax capacity (determined in step #3) to determine the tax rate needed to raise the proper levy amount. The auditor multiplies this tax rate times each property's tax capacity, to determine the school tax for that property.
