

Positive Points (November 17, 2016)

CE Jacobson

Jason Mielke | CE Jacobson Principal

Priority Area 1: Achieve Academic Excellence

- We have designed a balanced literacy implementation checklist, and from this list will focus on proficiency in the area of small group guided reading this first half of the school year.
- Our teaching teams have been working very hard establishing proficiency rubrics for literacy, related to our ten units, and aligning them to standards.
- Our new standards based report cards went out first quarter with 4,3,2,1 grading, with the goal of a unified system across all grades K-6

Priority Area 2: Foster a Positive and Safe Environment

- Our PBIS team spent the past two days at the MDE training cohort in St. Cloud. We gained value knowledge on active supervision and behavioral interventions that we will bring back to staff.
- Our next prek-2nd Tiger Pride Friday series tomorrow with some of the seniors from the football team. They will talk about a safe and positive environment on our playgrounds and buses.

- Our new mentor program and ready to get started. High school mentor candidates have received applications and we are getting them back already. Training will take place next Wednesday November 23rd.

Priority Area 3: Financial Stability to Support the District Mission

- Are students did a great job of collecting box-tops and we will be receiving a check of approximately \$1200 to help with student activities.

Priority Area 4: Strengthen Community Relationships

- We had an outstanding conference attendance of 96% of our students be represented by parents or guardians, we also had 376 students show up with their parents.
- During conferences we also held a Title One parent night in which a group of parents were able to get more details on our program.
